Soundsphere Model TX-60 (70V, 100V Constant Voltage) Transformer Installation Instructions

The Soundsphere Model TX-60 is designed for use with the Model 110 Page loudspeaker. Power taps are provided for 70V and 100V systems:

| | 70V | 100V |
|--------|--------|--------|
| Orange | 60W | ----- |
| Yellow | 30W | 60W |
| White | 15W | 30W |
| Green | Common | Common |

Remember to clip and insulate unused input wires; shorting any input wire to another will reduce the volume level and place an unexpected load on the power amplifier.
